

## OFF-ROAD AUTOMATIC LUBRICATION

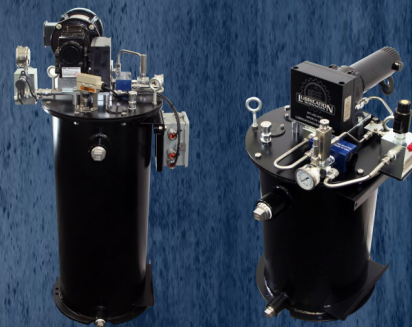

### About Us

For over 30 years, Lubrication Scientifics has developed and improved automatic lubrication equipment, with innovative products and superior solutions for all types of mobile and in-plant applications. Our field representatives have over 100 years of combined experience in automatic lubrication, while our industry partnerships have resulted in superior cost effective methods that improve asset life and productivity with measurable returns on investment. By recognizing the needs of our customers, we constantly strive to provide the latest state-of-the-art features in our products. Our Product and application specialists have a passion for excellence and are available to support your efforts and provide comprehensive solutions for lubrication issues. Choose Lubrication Scientifics products to improve asset life, increase reliability, improve uptime, save energy and lubricate 24/7.

### GREASE & OIL LUBRICATION KITS

Lubrication Scientifics Off-Road Automatic Lubrication ALL-IN-ONE Kits are ideal for heavy equipment. Cost effective kits will protect and keep your machinery running all year-round. Complete kits include pump, fittings, lube filled hose, filtration, lube distribution, monitor/control devices, safety components and much more. An investment that pays itself

### LUBRICATION PUMPS

Lubrication Scientifics carries a wide range of lubrication pumps. Our LCPR pump is a heavy duty, high quality, contamination-prevention reservoir barrel pump. LCPR Pumps are available in 24VDC & 115VAC up to 480VAC. LCPR pumps are fully capable of running 24/7 at pressures up to 5,000 PSI with available reservoir lubricant capacities of 44lbs to 400lbs.

## OFF-ROAD AUTOMATIC LUBRICATION

### METERING DIVIDER VALVES

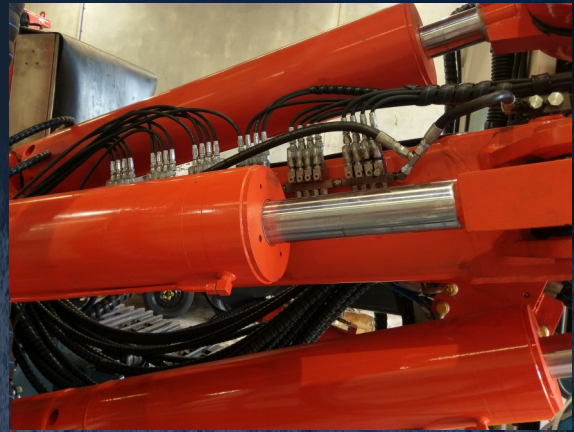

Lubrication Scientifics divider valves accurately dispense precise amounts of lubricant, the lifeblood of your machinery, at the right time. Lubrication Scientifics carries an extensive assortment of quality engineered sizes to fully fit any of your machinery needs.

#### Professional lubrication services

- Application Specific Lubrication Consulting
- System Design, Engineering product solutions
- System installation and customization
- Lubrication training
- Lubrication System type conversion
- Project management support
- Return-On-Investment (ROI) Analysis

#### Our mission for you

- Reliability
- Optimize machine productivity
- Safety
- Sustainability
- Reduce expenditures
- Minimize downtime
- Noise reduction
- Reduce operating costs

### OIL & GREASE INJECTORS

Lubrication Scientifics heavy duty injectors are ideal for heavy equipment that operates in harsh rugged environments. Earth moving, forestry, mining, rock crushing and agriculture equipment are a perfect match for our top-quality injectors.

#### Industries we serve

- Concrete
- Food Processing
- Heavy equipment—Off Road Equipment
- Over the road equipment
- Sanitation
- Construction
- Gas
- Hydroelectric
- Steel
- Transportation
- Aggregate
- Pulp & Paper
- Mining
