The Lubrication Scientifics Advantage

Lubrication Scientifics has invested in the improvement of automated lubrication equipment, developing innovative products that provide superior solutions for a variety of both in plant and mobile applications. With field reps that have over 100 years of combined experience in automatic lubrication, our partnerships with various industries have led to superior *cost effective methods* that improve asset life and productivity with *measurable* returns on investment.

THE RIGHT PRODUCTS

Various system designs, including single line parallel, dual line, series progressive, and hybrid systems are offered to provide the best technical solution for your application. Lubrication Scientifics offers metering devices in plated carbon steel, and 303 or 316 stainless construction to perform under the most demanding environmental conditions. Our world class Irvine, CA manufacturing facility produces ISO certified quality products with "off the shelf" delivery. We will help you select from a simple manual system to fully automated designs with condition monitoring.

THE RIGHT VALUES

Recognizing the needs of our customers we constantly strive to provide the latest state of the art features in our products. Our presence in the food and beverage, mining, construction, gas transmission, refining and heavy metals industries allow us to lead with new and innovative ideas. Product and application specialists with a passion for excellence are available to support your efforts and provide comprehensive solutions for lubrication issues.

THE RIGHT CHOICE

It makes sense to choose Lubrication Scientifics products to improve asset life, increase reliability, improve uptime, save energy and lubricate 24/7 without shutdown. Start today to protect your investments and automate your maintenance operations by contacting Lubrication Scientifics for a meeting with one of our experienced design specialists.
